Bangalore, India | +91 89555 31225 | singhalkushagra03@gmail.com | linkedin.com/in/kushagra-singhal20 | github.com/kushagra67

## SUMMARY

DevOps Engineer with ownership of infrastructure across 5 SaaS platforms. Specializing in Docker orchestration, CI/CD pipeline automation, Keycloak SSO, and PostgreSQL administration with GitHub Actions.

## WORK EXPERIENCE

### Founding Engineer – Datavedam, Bangalore

Dec 2025 – Present

- Managed DevOps and infrastructure for 5 SaaS platforms on Docker and GitHub Actions.
- Orchestrated 5-microservice deployment with Docker Compose and schema isolation.
- Configured Keycloak SSO with RBAC across all platforms, securing 500+ user sessions.
- Automated CI/CD pipelines (GitHub Actions, pytest), reaching 80%+ test coverage.
- Established QA processes with Robot Framework and defect tracking across 5 products.

### Data Analyst Intern – Nineleaps, Bangalore

Mar 2025 – Aug 2025

- Built 3 CI/CD pipelines with automated testing (pytest), decreasing defects by 25%.
- Optimized SQL data pipelines processing 1M+ rows, improving performance by 35%.
- Delivered 4 analytics modules and BI dashboards for 30+ stakeholders.

## PROJECTS

### PracharVedam – Ad Analytics Platform

- Decomposed monolith into 5 microservices with Docker Compose orchestration.
- Implemented schema-isolated PostgreSQL databases with Alembic migrations.
- Deployed event-driven services with Redis and Nginx reverse proxy.
- Tech:** Docker, Docker Compose, PostgreSQL, Redis, Nginx, GitHub Actions

### ShikshaVedam – AI-First School ERP

- Containerized FastAPI backend with Docker, PostgreSQL, and Keycloak SSO.
- Structured multi-tenant database schema with automated Alembic migrations.
- Provisioned Nginx reverse proxy and health checks for production readiness.
- Tech:** Docker, Keycloak, Nginx, PostgreSQL, Alembic, GitHub Actions

### BroAI – AI Agent Memory System

- Architected containerized deployment (FastAPI, PostgreSQL, Redis) via Docker Compose.
- Integrated pgvector and Apache AGE extensions into production PostgreSQL.
- Monitored service health with structured logging and automated restart policies.
- Tech:** Docker, Docker Compose, PostgreSQL, pgvector, Redis

## TECHNICAL SKILLS

- Languages:** Python, SQL
- Containerization:** Docker, Docker Compose, Nginx, Multi-stage Builds, Container Orchestration
- CI/CD:** GitHub Actions, Pipeline Design, Automated Testing, Continuous Deployment
- Databases:** PostgreSQL, pgvector, Redis, SQLAlchemy, Alembic, Database Migrations
- Infrastructure:** Keycloak, SSO, RBAC, JWT, SSL/TLS, Reverse Proxy, Health Checks
- Testing:** pytest, Robot Framework, Unit and Integration Testing, Test Automation
- Practices:** Microservices Architecture, GitOps, Infrastructure as Code, SOLID Principles
- Agile:** Scrum Master, Cross-functional Collaboration, Sprint Planning, Jira, Confluence

## EDUCATION

### Bachelor of Technology in Computer Science and Engineering

2021 – 2025

Christ University, Bangalore

## CERTIFICATIONS

- Google Data Analytics Professional Certificate** – Coursera
- AI Agents with LangChain and LangGraph** – IBM
